**\$151k Upgrade to the High Ropes Course  
First makeover in 23 years.**

**Collaroy, NSW:** The Collaroy Centre have invested \$151k upgrade to their High Ropes Course

The High Ropes Course was originally built as a single level course. The upgrade is a 2 tiered course, and offers:

- a new second level
- a continuous belay system
- an upgrade from 6 to 16 elements

The new upgrade now offers 2 levels of challenge. The much higher level course is perfect for those who love the extra adrenalin hit by being 10m up in the air off the ground.

For those who love a challenge but not feeling as brave, the lower level ropes course is perfect.

*"Safety was the main reason for the upgrade. Both levels now have a continuous belay system – no one can fall or get tangled. This safety upgrade also allows The Collaroy Centre to offer this Adrenalin course to younger groups, Year 5 +." says Robert Lean, Program Manager at The Collaroy Centre*

The continuous belay system makes both levels completely safe for participants. A belay system ensures that if any user slips, they will not fall – they will be caught by the belay and rope.

For the Corporate, School and Youth Camps who have stayed at the site before this development will understand that this allows for more of a variable challenge by choice.

The features and benefits include:

- a longer course with more course elements
- 2 tiers of challenging course options
- Flying Fox descent off both levels
- continuous belay system for 100% safety for all ages yr5 +

The 2 Tiered High Ropes Course is already in use and available for all camps and conferences booked in for programmed camps or programmed activities. For more information on [activities offered](#), or to go on a Virtual Tour, visit <https://www.collaroycentre.org.au/virtual-tour/>.

**About The Collaroy Centre:** Owned by The Salvation Army, the site is 10ha of Camp and Conference Facilities available for hire by schools, churches, companies & social/community groups.

Full conference facilities include an Auditorium that seats up to 400 people with a professional lighting gantry and sound system; a tiered Lecture Theatre; various sized Seminar Rooms; a large Conference Room, and large Chapel space.

The site can sleep up to 440, with various sleeping configurations. There are over 25 Adrenalin / Team Building activities including High Ropes, Flying Fox, Abseiling Tower, Rock Climbing Wall, Archery and Giant Swing. Offsite we host surfing, Stand Up Paddle Boarding, Kayaking & Duke of Edinburgh Expeditions.
